

BLACK ROSE/DARK ROSE INSTRUCTIONS

1. Trace the rose onto your porcelain.
2. Paint in black paint. Following the lines and make your cuts and highlights. Keep it very smooth.
3. Fire at .017.

SECOND FIRE TO PAINT A RED ROSE

1. Paint entire rose in your favorite red..... I like persian red or blood red. Go completely over all the black. I paint heavier and little oil.
2. You should be able to see the highlights through the red that you made on the black rose. Keep it smooth.
3. Fire at .017. If you know your red fades, fire at .018.
4. Touch up if you need to and do a 3rd fire.

You can now paint any dark colored rose using black first.

Isn't that fun?
